Dear Sir:

Currently the Federal Environmental Protection Agency is in the process of developing regulations for generation, transportation, storage and disposal of hazardous wastes under the Resource Conservation Recovery Act. Interpretation of these draft regulations suggest that pesticide container disposal sites will be subjected to these regulations and at this time I would like to develop a communication line between the State and the responsible party for the site. Could you please send me the name, phone number and address of the person or persons who are directly responsible for the day-to-day operation of the Middle Reese site?

Thank you for your help.

Frank Luchetti
